Video Editing Log

Project:_____

Page:_____ of _____

Digital formats (Video files, DVD): Use the Time Code display on your player to log your video. As you find a scene you want to use, write down the start time of the scene (IN) and when the scene ends (OUT).

Non-digital formats (VHS, VHS-C, 8mm): Use a real time counter (hour:minute:second) on your player or camera, rewind each tape to the beginning and reset the counter. Then play the tape and log those times.
