**For digital formats** (DVD, Video Files): Use the Time Code display on your player or camera to log your video. As you find a scene you want to use, write down the start time of the scene (IN) and when the scene ends (OUT).

**For non-digital formats** (VHS, VHS-C, 8mm): Use a real time counter (hour:minute:second) on your VCR or camera, rewind each tape to the beginning and reset the counter. Then play the tape and log those times.
