Start with your first video. Write the name of the game video (SOURCE). Use the Time Code display on your DVD player or MiniDV camera to log your video. As you find a play you want to use, write down the start time (IN) and when the play ends (OUT). Write a brief description of the action (VIDEO DESCRIPTION).

As you watch your videos, if the time code starts over at 00:00:00 again, contact us to help you with this issue.

Write down the information for your opening title (name, number, school, position, etc.).

If you decide to use more than 30 plays, start a new sheet.

Send your raw video sources, this editing log and your information to the address above. Let us know how many copies of your DVD you would like.

We will complete your video within one week (in most cases) of receiving all materials.

**Other Editing Options:**

- Add an arrow identifying your position before each play begins
- Get your video as a file for posting to YouTube, etc.
- Add a full game to the end of your DVD
- Contact us for more information about these options.
