Video Editing Log

Video Title:_____

Tape #:_____ Page _____ of _____

For digital formats (MiniDV, Digital8): Use the Time Code to log your tape. As you watch and find a scene you want to use, write down the start time of the scene (IN) and when the scene ends (OUT). As you watch, if the time code starts over at 00:00:00 again, use the logging method below.

For non-digital formats (VHS, VHS-C, 8mm): Use a real time counter (hour:minute:second) on your VCR or camera, rewind each tape to the beginning and reset the counter. Then play the tape and log those numbers.
